Other Computer Labs

Other Computer Labs

Fall 2013
As a part of the larger Academic Support Center, the Academic Support Lab (Kiely 131) offers a number of vital services—available free of charge to Queens College students. These include a reading lab; tutors in selected academic subjects; workshops in study skills; and a computer facility where students may write, conduct research, and print out their work. It also provides a tutoring center devoted solely to the sciences.

All students are invited to stop by, explore our services, and pick up a tutoring schedule!

Laboramus discipuli discant
“We serve in order that students may learn”

Science Tutoring Center
Remsen 114 | 718-997-5695

The Science Tutoring Center has separate facilities in Remsen 114. It offers tutoring on a walk-in basis to anyone who needs it. Please pick up the schedule in advance so you will know when tutors are available.

We tutor students in the following scientific disciplines:
• Biology
• Chemistry
• Environmental Science
• Physics

Study Skills
The Academic Support Lab offers students a number of ways to hone their academic skills.

Workshops are offered at various times in the following areas:
• Taking notes
• Reading journal articles
• Reading textbooks
• Organizing information for efficient study
• Making oral presentations
• Taking essay tests
• Managing time
• Writing personal statements

Students must sign up to attend workshops.

ESL Reading Lab

The Academic Support Lab offers ESL students several kinds of help in reading and speaking English.

Among these are:
• A self-service ESL reading laboratory
• A library of ESL materials
• Tutors in reading English
• ESL conversation workshops

Students may use the reading laboratory and library at their convenience. However, they must make appointments with us for ESL tutoring and workshops.
